

# Some highlights of our tour through the Gardens of England to the RHS Chelsea Flower Show Coming May, 2013

After breakfast we drive through the spectacular Cotswold countryside to Hidcote Manor Garden, one of the most famous gardens in Britain and an Arts and Crafts Masterpiece created by the American plant collector Major Lawrence Johnston. We are thrilled that the Head Gardener, Glyn Jones and his deputy are opening the gardens and giving the Curious Travelers a unique guided tour of Hidcote gardens.

“Those who wish may join our guided evening walk around historic Winchester. We will discover the fascinating history of this city- the capital of England before London! Jane Austen spent her last months here before her death. Come with me and see the famous 500 year old Round Table of Arthurian legend and so much more.”

“Today we visit the highlight of our tour, the Chelsea Flower Show, in the grounds of the Royal Hospital of Chelsea. The original show was held in 1852, in Kensington Gardens. In 1913 the show was moved to the grounds of the Royal Hospital Chelsea, where it has taken place every year since. Popular parts of the Chelsea Flower Show include the show gardens by leading names garden designers. We will be visiting the show on a special day set aside only for members of the Royal Horticultural Society. Your membership and entrance fee is included in the price of this tour. “
